## Real time chat application

- (Apr/2022 – July/2022)
- ◆ Fully functional chat application
  - ◆ Users can perform one to one chat  
Users can create group, add users, Remove users, all group members can together chat, real time notification
  - ◆ Tech Stack : React, Chakra, Socket, Express, REST
  - ◆ Frontend Code: [manoj19-github/dosti-chat-client](https://github.com/manoj19-github/dosti-chat-client)
  - ◆ Backend Code : [manoj19-github/dosti-chat-server](https://github.com/manoj19-github/dosti-chat-server)
  - ◆ Project Url: <https://dosti-app.netlify.app>

## EDUCATION

- Bachelor of Arts** (2016-2019)  
Viveakananda Mahavidyalaya
- ‘A’ Level course in Information Technology under DOEACC Scheme** (2019-2022)  
National Institute of Electronics  
And Information Technology (NIELIT)

## PERSONAL PROJECTS

### MS Code Editor

(Jan/2023 – Mar/2023)

MS Code editor is a real time code editor like google docs where you can code with multiple developer, compile it and get the result at real time, MS code editor supports 17 language for writing code, MS Code Editor can helps interviewer and interviewee, teacher-student, group of developers. I developed this project by using React, Tailwind CSS, WebSocket, NodeJS, Express, Redux toolkit and Rapid API

- ◆ Tech Stack : NextJS, Socket, Tailwind, Node & Express,
- ◆ Frontend Code: [manoj19-github/ms-editor-frontend](https://github.com/manoj19-github/ms-editor-frontend)
- ◆ Backend Code : [manoj19-github/ms-editor-server](https://github.com/manoj19-github/ms-editor-server)
- ◆ Project Url: <https://ms-editor-frontend.vercel.app/>

### YouTube Clone using YouTube Data API

(Aug/2022 – Nov/2022)

- ◆ YouTube replica created using YouTube API where one can login with his Google account and browse just like YouTube
- ◆ Users can search videos by name or category
- ◆ Tech Stack : React, Redux, Firebase, YouTube API, Bootstrap, sass
- ◆ Project Code : [manoj19-github/santratube-new](https://github.com/manoj19-github/santratube-new)
- ◆ Project Url: <https://santratube12.web.app>
